[linkedin.com/in/sinan-manna](https://www.linkedin.com/in/sinan-manna) | github.com/Sinxn51 | Bengaluru

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with hands-on experience building scalable web applications, RESTful APIs, and AI-integrated systems. Proven expertise in React.js, Node.js, FastAPI, and MongoDB. Strong knowledge of data validation, relational databases, backend task queues, Docker containerization, AWS cloud services, and Agile methodologies. Passionate about writing clean, modular, and performance-optimized code.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), Python, SQL, Java, HTML5, CSS3
Backend Development: FastAPI, Node.js, Express.js, RESTful APIs, Dependency Injection, Pydantic, OAuth2, JWT
Frontend Development: React.js, Vite, Responsive Web Design, User Interface Design, Framer Motion
Databases & Migrations: MongoDB (Motor), SQLAlchemy, Alembic, PostgreSQL, SQLite, Query Optimization
DevOps & Cloud: AWS (EC2, S3, RDS), Docker, Docker Compose, Celery, Redis, Git, GitHub, CI/CD, Agile Sprints
Machine Learning & NLP: scikit-learn, Google Gemini API, Predictive Modeling, NLP, Data Analysis

EDUCATION

Anjuman Institute of Technology and Management Oct. 2023 – June 2027

Bachelor of Engineering in Computer Science and Engineering | CGPA: 8.0+/10, Bengaluru, India

- Core Coursework: Data Structures, Algorithms, DBMS, Operating Systems, Computer Networks, Software Engineering

PROFESSIONAL EXPERIENCE

Buildbench Company — Web Developer Intern June 2026 – Aug. 2026

Bengaluru, India

- Completed an internship as a Web Developer Intern, contributing to website development, testing, and maintenance using modern web technologies.
- Performed assigned duties sincerely, demonstrated a strong willingness to learn, and maintained a professional attitude throughout the internship.

Azmith — Full Stack Developer Intern Nov. 2025 – April 2026

Bengaluru, India

- Built Hotel Bus, an AI-powered waiter platform, using React.js, Node.js, Express.js, and MongoDB.
- Implemented core application features and RESTful APIs, and collaborated in Agile sprints to gather requirements and deliver functionality on schedule.

TECHNICAL PROJECTS

Hotel Bus – AI-Powered Waiter Platform – GitHub 2026

React.js, Node.js, Express.js, MongoDB, REST APIs, Vite, Framer Motion

- Engineered a full-stack, real-time ordering platform enabling customers to scan table QR codes, chat with an AI waiter (Kai), and place orders.
- Built and consumed RESTful APIs end-to-end, integrating a responsive React.js frontend with a Node.js/Express.js backend and MongoDB for persistent data storage.
- Implemented async database operations using Motor for MongoDB, and integrated Gemini 1.5 Flash for personalized product suggestions.

Tohfah – E-Commerce Platform – Live | GitHub 2025

React.js, Node.js, Express.js, MongoDB, JWT, REST APIs

- Engineered a full-stack platform managing 150+ products with JWT-based authentication, a shopping cart, and secure checkout.
- Designed and implemented RESTful APIs and a responsive, component-based React.js UI, connected to a Node.js/Express.js backend.
- Optimized MongoDB queries and database schemas for quick data retrieval, achieving a 2-second average page load time.

CERTIFICATIONS & TRAINING

- RESTful API Development with FastAPI – FastAPI Certificate (2026): Built a delivery management API covering Pydantic validation, SQLAlchemy ORM, Alembic migrations, OAuth2 authentication, Celery workers, and Docker deployment.
- Full Stack Web Development (MERN) – Udemy (2025).
